A summary is provided in the table below:

Category	tCO ₂ e
Venue	1.22
Energy	1.09
Refrigerant	0.06
Water	0.00
Waste	0.06
Meals	2.81
Accomodation	0.29
Travel	0.81
Air	0.00
Land	0.81
Materials	0.59
Freight	0.20
Pre-event	0.11
Marketing	0.11
Preparation	0.00
Virtual event	0.00
Total	6.04

This equals:

1

Flights around the circumference of the world, or

18

m² Arctic sea-ice lost (of September sea-ice area), or

880

Pine trees needed to capture emissions for a whole year
